Settlement Housing Fund creates and sustains high quality affordable housing and programs, building strong and economically diverse neighborhoods throughout New York City. Since 1969, the organization has worked closely with community partners to provide low- and moderate-income New Yorkers with pathways to long-term affordable housing, education, employment and wellness. Proceeds from our annual spring benefit support our work to advance new housing developments and impactful programs for young people, homeless families, and thousands of New Yorkers living in and near our housing.
