The New Settlement Community Center is part of a larger community school campus that combines two new public schools, pre-Kindergarten through grade twelve, special education classrooms, a health clinic and outdoor play spaces, with an aquatics center, dance studio, green roof learning terrace, cooking classroom and multipurpose spaces. Located in the Mt. Eden section of the Southwest Bronx, the Community Campus follows more than twenty years of work at Settlement Housing Fund and New Settlement Apartments to revitalize this once abandoned neighborhood with over 1,000 units of quality affordable housing and programs that strengthen social and academic outcomes for young people and their families.
